Juriy Tsimashenka

Software Engineer at Freelance | Self-Employed

New York City Metropolitan Area

Summary

Performance-driven C++ & Software Developer with over 2 years of practical development experience. Contributed to software development in various areas, such as Game Development, Interactive Graphics, and System Utilities. Experienced in developing performant, low-level graphics applications and custom software solutions. I possess comprehensive knowledge of software architecture, rendering pipelines, and memory management, taking projects from initial mathematical concept to optimized implementation. ▶ Skills: # C++ & OOP (Data Structures, Algorithms, Memory Management) # Computer Graphics & Rendering (OpenGL, GLFW, GLAD) # Linux Systems & Scripting (Arch Linux, Shell, Python) ▶ Strengths Strong analytical mindset with deep attention to code efficiency, performance, and optimization Proven ability to write clean, modular, and maintainable architecture from scratch Proactive problem solver who excels when tackling complex technical and mathematical challenges ▶ Who I want to work with I am looking for remote or hybrid opportunities with engineering-focused companies building high-performance software, graphics systems, or innovative digital products. I greatly value a transparent engineering culture that encourages continuous technical growth, autonomy, and constructive code reviews. ▶
